

## SAFE, DIGNIFIED FLOOR-TO-STANDING TRANSFERS

NOW

LAUNCHED

### A Smarter Way to Recover from Falls

The **RAYMEX® Lift** helps individuals safely recover from the floor and move between low positions without slings, harnesses, or heavy lifting. Designed for independent use or minimal assistance, it supports aging in place while reducing caregiver strain.

### KEY FEATURES

- Powered seat lowers to floor level & rises to **24"**
- Stops at any height with push-button control
- No slings or harnesses required
- Rotating seat & arms for easy transfers and toilet access
- Folds to **12"** wide for transport or storage
- **300 lb / 136 kg** capacity
- Battery supports **~30** full lifts per charge

# BENEFITS

## FOR CLIENTS

- Dignified, low-stress transfers
- Reduced fear of falling
- Greater independence at home

## FOR CAREGIVERS

- No heavy lifting
- Lower injury risk
- Faster, safer assistance

## SUPPORTING AGING IN PLACE

By enabling safe recovery from the floor and low seating, the **RAYMEX® Lift** helps reduce emergency lift-assist calls, hospital admissions, and premature transitions to long-term care.
